

Muhammad Zaghlool clears his name

To my family, friends and most importantly my devoted customers. My name is Muhammad Zaghlool, a businessman by profession. Recently my name had been mentioned in the newspaper dated August 28, 2016 of me being a human trafficker. I want to make it categorically clear that I am in no way involved in such actions or behavior. From the day I opened my business in this wonderful country, I have tried my utmost to be an upholding and law abiding citizen. I have not done anything illegal. In 2008 I got married to a Belizean woman to whom I am still married. I went through all the legal processes in order to obtain my citizenship. I received my citizenship in 2010 and ever since I started my business there have been some jealous and bad minded person(s) who have tried and are still trying to hinder my success. I have never been questioned or arrested for anything illegal or contrary to societal norms. I take this opportunity to ask special branch and/or the police to please check into these false reports that have been made against me and clarify them so that my name can be cleared. These false reports have been made to bring down my good and decent character; it is defamation of my character. Again I implore the respective authorities to urgently check into these allegations and clear things up. I am prepared to be available anytime to answer any queries.

Respectfully submitted
